Welcome

Perth Professional Photographers is a boutique portrait photography studio. We take pride in giving exceptional service by taking the time to listen to you, and to translate your personal story into photographs that you will treasure forever. We deliver the highest quality photographic artwork, which is locally designed, printed and manufactured in Australia.

Family Portraits

We know that you want those special pictures of you all together that are simply impossible to photograph yourselves. Family photographs of you all just being yourselves, laughing, playing, hugging, kissing and looking your best whilst avoiding all of the stresses that come with it. We plan our portrait sittings to ensure we get the best from everybody and to give you a fantastic time.

We know not all families are the same! We want to get the best photographs of your family in an environment they love. We plan the photographic experience around you and your family. If you love the beach, then let's shoot at the beach! If you love parks or bushland, let's go there. Maybe you are a family who love being out and about in the city or love chilling at home, whatever brings out your families personalities with smiles and happy memories is where we will plan to shoot.

Couples Portraits

Photographing couples is about capturing emotions, the love you feel for each other! Whether you are dating, engaged, or been married for 25 years, getting portraits together filled with heartfelt emotion will be more meaningful as it is truly about you as a couple, and not an artificial carbon-copy pose.

The photographs from your portrait session will have more meaning behind them than just stunning photography. The photographs will convey the love you have for each-other. Something you can display proudly on the wall or in an album as a memento in time.

The Experience

How many times have you heard of people grabbing their most cherished possessions during a disaster which always includes their family photographs? We feel that your family portrait is one of the few possessions in your home that will NEVER decrease in value. In fact, it will only become more priceless as the days & weeks go by! Unfortunately, many of today's photographers would rather just shoot a bunch of images, burn them on a disk, and leave you to figure out what to do with them. This is a GREAT injustice not only to you, but your family's heritage as well. Our goal is to create one-of-a kind images you will proudly display in your home!

The Design Consult

What product will suite our home?

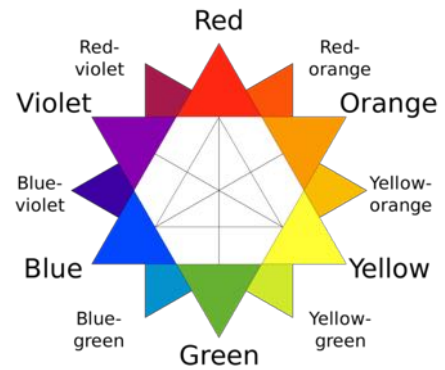

What do we wear?

What colours should we wear?

What should we bring?

Who needs to be photographed?

Where should we do the photography session?

Our goal as a portrait artist is to personalise & customise each session as much as possible. We are able to achieve this by getting to know you first in our design consultation and then incorporating your family's lifestyle into your portraits. We will send you a pre-shoot questionnaire which will take 60 seconds to fill out. Then we will contact you 2-3 days prior to your shoot to guide you the rest of the way.

In addition to personalising each session, we take the time to customise each portrait for where it will eventually hang in the home. The finished image should harmonise with the space it will occupy, may it be the overall size, colour, feeling or the mood in the room.

The Shoot

Your Photographic Experience session is all about creating an environment in which your family can thrive! Our sessions take place in the places that meant the most to you; your cozy living room, your favourite cafe or restaurant, or maybe the place you fell in love. We are committed to telling YOUR story! We ask that you trust us as professionals who are setting you up to be the most beautiful you during our time photographing together; photographing you at your best is specialised work, and we LOVE it!

Picking the right location for your portrait experience is super important. We want to capture you in an environment you are most comfortable in and a place that brings you joy.

Be that at the beach, in a park, surrounded by bush, in the urban city or in your own home. We can photograph you in just about any location.

Design & Ordering Session

Everyone loves seeing their images for the first time. A time for lots of laughs and sometimes a few tears! We will help you through the selection process but you only buy what you want – without pressure. Once you've picked out the images that you love, we can also project different framing options and you can see exactly what your finished artworks will look like on your walls.

No matter the space you have in your home we have a product that will suite. Be that amazing metallic wall art, vibrant canvas prints, fine-art framed prints, albums for your coffee table, gift prints for the family.

Payment are made on the day of your ordering session. We accept cash, electronic funds transfer or credit card.

How to Book

Sessions are available on Tuesday and Thursday beginning at 9am and on Saturdays from sunrise (for those early risers 😊)

Please take into consideration working schedules for teens, sporting commitments for the younger members of the family and sleep and feeding times. Please check with your entire family to arrange a suitable time and then contact us to arrange your session.

A \$50 booking fee is required to secure your booking into our diary, and will be refunded or credited toward your order on the day of your design appointment. The booking fee is not refunded if you give us less than 3 days notice for the cancellation of your appointment. This covers the loss of the appointment session and/or design appointment and your photographer's time.

You can contact us through our website contact page, email us at sales@perthprophoto.com.au or give us a call on 0410 451 575.

Graham's BIO

Senior photographer and co-business owner, I have been shooting for over 20 years and am an Accredited Member of the AIPP. I'm married to the world best wife and couldn't ask for a better partner as we travel down life's highway. We have been married for over 13 years. We have two fantastic children, Amélie (11) and James (8). I know how fast time flies by and all those fleeting moments where our family changes, and how important it is to capture images along life's journey.

Kheng's BIO
